ABOUT ME

Highly motivated data analyst with expertise in Power BI and Tableau for insightful data visualizations. Proficient in SQL and Pandas for data manipulation and analysis.

PROJECTS

SQL PROJECT: SKY SPORTS'S FIFA WORLD CUP DATA ANALYSIS

Successfully completed analysis of FIFA WC 2022 using SQL .
I was able to extract meaningful insights and relevant information from a large data using various queries which helped me gain handsful practical knowledge.

POWER BI DASHBOARD: PRIME VIDEO ANALYSIS

Created a Power-bi dashboard of Prime Video's data, highlighting relevant information.

HR ANALYTICS: EXPLORING EMPLOYEE ATTRITION WITH TABLEAU

Created a HR Analytics Dashboard with Tableau using various filters and charts to help management understand their employee attrition better.

SQL PROJECT : HOSPITAL DATA ANALYSIS

Practiced on a pre-built hospital database , executing various queries and learnt multiple ways to access specified records from the database. I was able to learn many complex queries which require high analytical skills.

MACHINE LEARNING PROJECT: PREDICTING EARTH COLLISION RISKS

Created a machine learning project on a kaggle dataset predicting whether objects around earth are at a collision risk or not.
